1. The construction of four new shops is proceeding but slowly because of lack of materials. Erection of the large crane is still in the initial stage, likewise because of the lack of material, in particular rollers which are unobtainable. 25X1

2. The seashore on both sides of Wismar has been closely patrolled since October by mounted Volkspolizei.

3. A "show trial" is being prepared at the Vorwaerts-Werft; two engineers are to be tried for sabotage.

4. Ship building activities are confined to repairs to small vessels.

5. In addition to shortage of material, there is trouble over finance and the payment of workers who cannot be gainfully employed because of the lack of material. The continuous conferences with the Russians have proved of no avail and what little help has been given is insufficient.

6. The guarding of the premises of the shipyard has been strengthened by SSD, Volkspolizei and Werkschutz personnel.
